Nanodegree

Honors-Awards

Most Likely To Become a StartUp

Robert Allen

Team Lead at Lambdaschool | Full Stack Dev | HTML & CSS |
JavaScript | React & Redux | NodeJS | SQL | Python
Detroit Metropolitan Area

Summary

I've always been either coding or tinkering with something.
Gravitating towards development felt very natural. Over the years I
have worked in a few different languages. My most recent passion is
building web apps with React and Redux, using the foursquare and
google maps API's. I am also quite fond of NextJS. Let me know if
you have any fun projects going on.

If you are reaching out about an opportunity it would be great if you
would email me at bobbidigi34@gmail.com. Thanks!

Experience

Self-Employed
Software Engineer
January 2019 - Present (2 years 4 months)
Greater Detroit Area

Lambda School
Team Lead
November 2019 - February 2020 (4 months)
remote

• Lead a team of students, providing daily feedback and code reviews

• Mentor students in areas of effective learning, programming and provide
additional challenges to advance their learning

• Provide reliable resources in areas of communications, programming and
personal well-being for students

• Make sure students are progressing in their curriculum by reviewing code,
providing feedback and one-on-one code debugging with students

• Facilitate daily stand-up meetings to build teamwork, idea sharing and check
progress and understanding

Udacity
Independent Consultant
February 2019 - November 2019 (10 months)
Mountain View, California

Description: As a consultant to educational platform(s), such as Udacity, I utilize my specialized knowledge in the field(s) of programming and web development, and my strong communication skills to provide project reviews and other student support services.
